The Key Maps which are attached as Schedule "A" to this Zoning By-Law identify open watercourses, including municipal drains, and flood and fill areas as defined in Section 5.10. The location of these watercourses and flood and fill areas was based on mapping available through the Ontario Basic Mapping Program, which in turn was based on aerial photography from the 1980's. In some situations, open municipal drains have been changed over to enclosed municipal drains and therefore an open watercourse no longer exists. When such situations occur, it shall not be necessary to amend this Zoning By-Law to reflect the change in classification of the watercourse (that is, from any "open" municipal drain to an "enclosed" municipal drain) and the provisions of the By-law shall be applied as appropriate. It is intended that the Key Maps will be revised to reflect such changes at such time that the Township undertakes either general and/or housekeeping amendments to this Zoning By-Law.
